Start by:

Measure and mark your room dimensions including any new or existing doors and windows, service points for appliances or taps and any other important fixtures.

Choose your cabinets. Remember that accurate cabinets dimensions can be found on our website.

Use the grid as a guide to layout your kitchen, make sure you calculate accurate Measurements including cabinets, end panels, fillers and any clearance you need for appliances.

Note: one small square represents 100mm

Important:

Please use this planning grid as a guide only to help you plan the layout of your kitchen. Cabinet dimensions can be found on our website at www.xpresscabinets.com.au.

Appliances: Consult your appliances manufacture s specifications to ensure adequate ventilation is allowed between cabinets and appliances prior to beginning your layout as these may vary and can influence you design.
